## Profile

I'm a skillful front end web developer with two years experience, I enjoy bringing bringing life to websites with my codes and helping solve problems.

## Employment History

### Freelancing, Lagos

January 2022 — Present

- Built fast and all devices responsive web applications using the right semantics elements
- Worked closely with the UI/UX designers to bring to life the perfect web application
- Wrote clean and readable code while maintaining best practices

### Raj Tech Startup, Lagos

November 2022 — June 2023

- Single-handedly built the front end web application that serves the company's clients needs
- worked hand in hand with the backend developers to make the website functional
- Also worked closely with the project manager to structure the web application
- Managed and updated the web application based on the company's and clients requests

## Education

### National Diploma, Lagos State Polytechnic, Lagos

August 2017 — August 2019
